

SECTION 1 — IMPORT-READY SOURCE FILE

AP U.S. History MCQ Practice Exam 6

PART A — QUESTIONS

APUSH-MCQ6-001

Section: MCQ

Type: mcq

Unit: Unit 1 — Period 1: 1491–1607

Period: Period 1: 1491–1607

Theme: GEO — Geography and the Environment

Skill: Claims and Evidence in Sources

Prompt:

Stimulus: Secondary-source interpretation. A historian argues that Native societies of the Pacific Northwest before sustained European contact developed complex communities around abundant coastal resources, cedar forests, plank houses, canoe travel, and ceremonial exchange. Which evidence would best support this interpretation?

- A) Records showing Spanish silver shipments from Mexico to Europe
- B) Archaeological evidence of large plank houses, carved cedar objects, salmon processing, and coastal trade goods
- C) English laws regulating tobacco exports from Virginia
- D) Maps showing cotton plantations in the lower Mississippi Valley
- A) Records showing Spanish silver shipments from Mexico to Europe
- B) Archaeological evidence of large plank houses, carved cedar objects, salmon processing, and coastal trade goods
- C) English laws regulating tobacco exports from Virginia
- D) Maps showing cotton plantations in the lower Mississippi Valley

APUSH-MCQ6-002

Section: MCQ

Type: mcq

Unit: Unit 1 — Period 1: 1491–1607

Period: Period 1: 1491–1607

Theme: WXT — Work, Exchange, and Technology

Skill: Developments and Processes

Prompt:

Stimulus: Secondary-source interpretation. A historian argues that Pacific Northwest Native societies built large communities around salmon, cedar, canoes, plank houses, and ceremonial exchange before sustained European contact. Which environmental factor most directly supported this pattern?

- A) Dry grasslands suited mainly to bison hunting
- B) Desert landscapes requiring irrigation agriculture
- C) Tropical plantation zones suited to sugar production
- D) Rich marine resources and forests that supported fishing, woodworking, and trade
- A) Dry grasslands suited mainly to bison hunting
- B) Desert landscapes requiring irrigation agriculture
- C) Tropical plantation zones suited to sugar production
- D) Rich marine resources and forests that supported fishing, woodworking, and trade

APUSH-MCQ6-003

Section: MCQ

Type: mcq

Unit: Unit 1 — Period 1: 1491–1607

Period: Period 1: 1491–1607

Theme: SOC — Social Structures

Skill: Argumentation

Prompt:

Stimulus: Secondary-source interpretation. A historian argues that Pacific Northwest Native societies developed large plank-house communities, canoe travel, ceremonial exchange, and resource-based social hierarchies before sustained European contact. Which argument about precontact Native North America is best supported?

- A) Native societies adapted differently to regional environments and could develop complex social systems without European influence.
 - B) Native peoples depended on European tools before creating permanent communities.
 - C) Native societies across North America had identical economies and political structures.
 - D) Coastal Native communities avoided exchange and ceremonial life before colonization.
- A) Native societies adapted differently to regional environments and could develop complex social systems without European influence.
 - B) Native peoples depended on European tools before creating permanent communities.
 - C) Native societies across North America had identical economies and political structures.
 - D) Coastal Native communities avoided exchange and ceremonial life before colonization.

APUSH-MCQ6-004

Section: MCQ

Type: mcq

Unit: Unit 2 — Period 2: 1607–1754

Period: Period 2: 1607–1754

Theme: SOC — Social Structures

Skill: Claims and Evidence in Sources

Prompt:

Stimulus: Plain-text comparison chart of plantation law and labor.

Region or colony | Labor and legal pattern

Barbados, mid-1600s | Sugar plantations; harsh slave codes; African majority population

South Carolina, late 1600s–early 1700s | Rice plantations; enslaved African labor; legal rules influenced by Caribbean models

New England, same period | Smaller enslaved population; mixed economy; port trade

Which conclusion is best supported by the chart?

- A) New England developed the same plantation system as Barbados.
 - B) South Carolina avoided influence from Caribbean plantation societies.
 - C) Caribbean plantation models helped shape slavery and law in parts of British North America.
 - D) Slave codes weakened plantation control over enslaved labor.
- A) New England developed the same plantation system as Barbados.
 - B) South Carolina avoided influence from Caribbean plantation societies.
 - C) Caribbean plantation models helped shape slavery and law in parts of British North America.
 - D) Slave codes weakened plantation control over enslaved labor.

APUSH-MCQ6-005

Section: MCQ

Type: mcq

Unit: Unit 2 — Period 2: 1607–1754

Period: Period 2: 1607–1754

Theme: MIG — Migration and Settlement

Skill: Sourcing and Situation

Prompt:

Stimulus: Plain-text comparison chart of plantation law and labor. Barbados is described as having sugar plantations, harsh slave codes, and an African majority population; South Carolina as having rice plantations, enslaved African labor, and legal rules influenced by Caribbean models. Which migration pattern helped connect the two regions?

- A) Movement of some English planters and enslaved Africans from the Caribbean to Carolina
 - B) Migration of Puritan families from Massachusetts to Barbados
 - C) Forced removal of Cherokee families to Barbados
 - D) Migration of German farmers into Spanish missions
- A) Movement of some English planters and enslaved Africans from the Caribbean to Carolina
 - B) Migration of Puritan families from Massachusetts to Barbados
 - C) Forced removal of Cherokee families to Barbados
 - D) Migration of German farmers into Spanish missions

APUSH-MCQ6-006

Section: MCQ

Type: mcq

Unit: Unit 2 — Period 2: 1607–1754

Period: Period 2: 1607–1754

Theme: WXT — Work, Exchange, and Technology

Skill: Claims and Evidence in Sources

Prompt:

Stimulus: Plain-text comparison chart of plantation law and labor. Barbados is linked to sugar, South Carolina to rice, and both to enslaved African labor and coercive slave law. Which claim is best supported by the chart?

- A) Plantation economies depended mainly on wage labor by European artisans.
 - B) Atlantic plantation production relied on coerced African labor and legal systems designed to control that labor.
 - C) Rice cultivation eliminated the demand for enslaved labor in South Carolina.
 - D) British colonial law generally protected enslaved people from plantation discipline.
- A) Plantation economies depended mainly on wage labor by European artisans.
 - B) Atlantic plantation production relied on coerced African labor and legal systems designed to control that labor.
 - C) Rice cultivation eliminated the demand for enslaved labor in South Carolina.
 - D) British colonial law generally protected enslaved people from plantation discipline.

APUSH-MCQ6-007

Section: MCQ

Type: mcq

Unit: Unit 2 — Period 2: 1607–1754

Period: Period 2: 1607–1754

Theme: WOR — America in the World

Skill: Making Connections

Prompt:

Stimulus: Plain-text comparison chart of plantation law and labor. Barbados and South Carolina are linked by plantation production, enslaved African labor, and coercive slave codes, while New England is described as a smaller-slave-population, mixed-economy port region. Which broader Atlantic development does the chart illustrate?

- A) The end of African slavery in British colonies before 1700
- B) The isolation of mainland colonies from Caribbean commerce
- C) The decline of plantation exports in the seventeenth century
- D) The spread of plantation slavery through interconnected Atlantic migration, law, and trade
- A) The end of African slavery in British colonies before 1700
- B) The isolation of mainland colonies from Caribbean commerce
- C) The decline of plantation exports in the seventeenth century
- D) The spread of plantation slavery through interconnected Atlantic migration, law, and trade

APUSH-MCQ6-008

Section: MCQ

Type: mcq

Unit: Unit 3 — Period 3: 1754–1800

Period: Period 3: 1754–1800

Theme: GEO — Geography and the Environment

Skill: Claims and Evidence in Sources

Prompt:

Stimulus: Described map, 1787. The map shows the Northwest Territory north of the Ohio River, townships divided into rectangular grids, reserved sections for public schools, and a label noting that slavery is prohibited in the territory. Which conclusion is best supported by the map?

- A) The Northwest Ordinance organized western settlement while linking land policy, education, and slavery restriction.
- B) The federal government abandoned authority over western lands.
- C) The Northwest Territory was reserved exclusively for Native nations.
- D) Slavery was expanded by federal law into all western territories.
- A) The Northwest Ordinance organized western settlement while linking land policy, education, and slavery restriction.
- B) The federal government abandoned authority over western lands.
- C) The Northwest Territory was reserved exclusively for Native nations.
- D) Slavery was expanded by federal law into all western territories.

APUSH-MCQ6-009

Section: MCQ

Type: mcq

Unit: Unit 3 — Period 3: 1754–1800

Period: Period 3: 1754–1800

Theme: PCE — Politics and Power

Skill: Developments and Processes

Prompt:

Stimulus: Described map, 1787. The map shows the Northwest Territory north of the Ohio River, township grids, school land reservations, and a prohibition of slavery in the territory. Which political development is most directly reflected?

- A) The creation of a permanent colonial empire ruled directly by Britain
- B) The abolition of state governments in the early republic
- C) The Confederation Congress's attempt to create an orderly process for territorial settlement and statehood
- D) The immediate annexation of Texas
- A) The creation of a permanent colonial empire ruled directly by Britain
- B) The abolition of state governments in the early republic
- C) The Confederation Congress's attempt to create an orderly process for territorial settlement and

statehood

D) The immediate annexation of Texas

APUSH-MCQ6-010

Section: MCQ

Type: mcq

Unit: Unit 3 — Period 3: 1754–1800

Period: Period 3: 1754–1800

Theme: NAT — American and National Identity

Skill: Contextualization

Prompt:

Stimulus: Described map, 1787. The map shows the Northwest Territory divided into townships, public-school lands, and a ban on slavery north of the Ohio River. Which broader challenge facing the early republic is most directly represented?

A) Deciding whether to restore monarchy

B) Creating republican institutions for western expansion while balancing sectional and federal concerns

C) Ending all westward migration after independence

D) Building an overseas empire in the Pacific

A) Deciding whether to restore monarchy

B) Creating republican institutions for western expansion while balancing sectional and federal concerns

C) Ending all westward migration after independence

D) Building an overseas empire in the Pacific

APUSH-MCQ6-011

Section: MCQ

Type: mcq

Unit: Unit 3 — Period 3: 1754–1800

Period: Period 3: 1754–1800

Theme: SOC — Social Structures

Skill: Making Connections

Prompt:

Stimulus: Described map, 1787. The map shows the Northwest Territory north of the Ohio River, township grids, public-school lands, and a ban on slavery. Which later conflict reflected a similar issue raised by the map?

A) The debate over whether to create the Environmental Protection Agency

B) The debate over whether the United States should enter World War I

C) The debate over whether factory workers should receive shorter hours

D) The debate over slavery's status in new western territories

A) The debate over whether to create the Environmental Protection Agency

B) The debate over whether the United States should enter World War I

C) The debate over whether factory workers should receive shorter hours

D) The debate over slavery's status in new western territories

APUSH-MCQ6-012

Section: MCQ

Type: mcq

Unit: Unit 3 — Period 3: 1754–1800

Period: Period 3: 1754–1800

Theme: PCE — Politics and Power

Skill: Claims and Evidence in Sources

Prompt:

Stimulus: Original simulated state constitutional debate excerpt, 1776–1780, based on historical context, not an actual quotation. “If power returns to a single house or governor, we have changed names but not danger. A bill of rights, frequent elections, and written limits are the safeguards of liberty.” Which claim is best supported by the excerpt?

- A) Revolutionary state constitution writers rejected written limits on government.
 - B) State governments after independence restored royal governors.
 - C) Revolutionary political culture emphasized written protections against concentrated power.
 - D) Most state constitution writers opposed elections.
- A) Revolutionary state constitution writers rejected written limits on government.
 - B) State governments after independence restored royal governors.
 - C) Revolutionary political culture emphasized written protections against concentrated power.
 - D) Most state constitution writers opposed elections.

APUSH-MCQ6-013

Section: MCQ

Type: mcq

Unit: Unit 3 — Period 3: 1754–1800

Period: Period 3: 1754–1800

Theme: NAT — American and National Identity

Skill: Sourcing and Situation

Prompt:

Stimulus: Original simulated state constitutional debate excerpt, 1776–1780, based on historical context, not an actual quotation. The speaker calls for a bill of rights, frequent elections, and written limits to prevent concentrated power. Which historical situation best explains this concern?

- A) Revolutionary distrust of monarchy and arbitrary authority shaped new state governments.
 - B) Industrial workers demanded national labor unions.
 - C) New Deal officials expanded federal welfare programs.
 - D) Southern states defended secession in 1861.
- A) Revolutionary distrust of monarchy and arbitrary authority shaped new state governments.
 - B) Industrial workers demanded national labor unions.
 - C) New Deal officials expanded federal welfare programs.
 - D) Southern states defended secession in 1861.

APUSH-MCQ6-014

Section: MCQ

Type: mcq

Unit: Unit 3 — Period 3: 1754–1800

Period: Period 3: 1754–1800

Theme: PCE — Politics and Power

Skill: Argumentation

Prompt:

Stimulus: Original simulated state constitutional debate excerpt, 1776–1780, based on historical context, not an actual quotation. The speaker argues that “a bill of rights, frequent elections, and written limits” are safeguards of liberty. Which argument about Revolutionary political change is best supported?

- A) Independence produced no experiments in republican government.
- B) State constitution making focused only on foreign diplomacy.
- C) Revolutionary leaders agreed that executive power should be unlimited.
- D) The Revolution encouraged experiments in limiting government through written constitutions

and rights protections.

- A) Independence produced no experiments in republican government.
- B) State constitution making focused only on foreign diplomacy.
- C) Revolutionary leaders agreed that executive power should be unlimited.
- D) The Revolution encouraged experiments in limiting government through written constitutions and rights protections.

APUSH-MCQ6-015

Section: MCQ

Type: mcq

Unit: Unit 4 — Period 4: 1800–1848

Period: Period 4: 1800–1848

Theme: WXT — Work, Exchange, and Technology

Skill: Claims and Evidence in Sources

Prompt:

Stimulus: Plain-text table of Erie Canal effects.

Indicator | Before canal completion | After canal completion

Travel time between Buffalo and New York City | Much longer | Much shorter

Freight cost per ton | High | Lower

Western farm access to eastern markets | Limited | Expanded

Growth of canal towns | Modest | Rapid

Which conclusion is best supported by the table?

- A) The Erie Canal weakened ties between western farmers and eastern markets.
- B) Internal improvements reduced transportation costs and helped integrate regional markets.
- C) Canal construction ended urban growth in New York.
- D) Transportation change had little effect on agricultural commerce.
- A) The Erie Canal weakened ties between western farmers and eastern markets.
- B) Internal improvements reduced transportation costs and helped integrate regional markets.
- C) Canal construction ended urban growth in New York.
- D) Transportation change had little effect on agricultural commerce.

APUSH-MCQ6-016

Section: MCQ

Type: mcq

Unit: Unit 4 — Period 4: 1800–1848

Period: Period 4: 1800–1848

Theme: GEO — Geography and the Environment

Skill: Developments and Processes

Prompt:

Stimulus: Plain-text table of Erie Canal effects. After canal completion, travel time and freight costs between Buffalo and New York City fell, western farm access to eastern markets expanded, and canal towns grew rapidly. Which geographic feature made the canal especially significant?

- A) It linked the Great Lakes region to the Hudson River and Atlantic trade.
- B) It connected California gold fields to the Pacific Ocean.
- C) It carried plantation cotton directly to New Orleans.
- D) It moved settlers across the Rocky Mountains.
- A) It linked the Great Lakes region to the Hudson River and Atlantic trade.
- B) It connected California gold fields to the Pacific Ocean.
- C) It carried plantation cotton directly to New Orleans.
- D) It moved settlers across the Rocky Mountains.

Skill: Contextualization

Prompt:

Stimulus: Secondary-source interpretation. A historian argues that late nineteenth-century segregation worked through law, custom, violence, and court rulings that turned public space into racial hierarchy. Which broader context best explains this development?

- A) Federal enforcement of Reconstruction protections grew stronger after 1890.
 - B) Southern white leaders rebuilt racial control after Reconstruction while claiming local authority and social order.
 - C) The Fourteenth Amendment immediately ended all public discrimination.
 - D) Segregation was limited to northern industrial cities.
- A) Federal enforcement of Reconstruction protections grew stronger after 1890.
 - B) Southern white leaders rebuilt racial control after Reconstruction while claiming local authority and social order.
 - C) The Fourteenth Amendment immediately ended all public discrimination.
 - D) Segregation was limited to northern industrial cities.

Unit: Unit 6 — Period 6: 1865–1898

Period: Period 6: 1865–1898

Theme: ARC — American and Regional Culture

Skill: Argumentation

Prompt:

Stimulus: Secondary-source interpretation. A historian argues that late nineteenth-century segregation used law, custom, violence, and court rulings to create racial hierarchy in public space. Which argument is best supported?

- A) Segregation emerged only from private prejudice and had no legal basis.
 - B) Segregation expanded Black political power in the South.
 - C) Law and everyday custom worked together to define unequal citizenship after Reconstruction.
 - D) Court rulings consistently protected integrated public accommodations.
- A) Segregation emerged only from private prejudice and had no legal basis.
 - B) Segregation expanded Black political power in the South.
 - C) Law and everyday custom worked together to define unequal citizenship after Reconstruction.
 - D) Court rulings consistently protected integrated public accommodations.

Unit: Unit 6 — Period 6: 1865–1898

Period: Period 6: 1865–1898

Theme: GEO — Geography and the Environment

Skill: Making Connections

Prompt:

Stimulus: Described map and strike notice, 1894. Rail lines radiate from Chicago across the Midwest and West, and a worker notice urges members not to handle Pullman cars until wages and company-town rents are addressed. Which feature of the map helps explain why the strike became a national issue?

- A) Rail lines were restricted to one town in Illinois.
 - B) Chicago had no role in national transportation.
 - C) Interconnected rail networks linked local labor conflict to national commerce.
 - D) Pullman workers controlled all federal courts.
- A) Rail lines were restricted to one town in Illinois.
 - B) Chicago had no role in national transportation.
 - C) Interconnected rail networks linked local labor conflict to national commerce.
 - D) Pullman workers controlled all federal courts.

Unit: Unit 7 — Period 7: 1890–1945

Period: Period 7: 1890–1945

Theme: MIG — Migration and Settlement

Skill: Claims and Evidence in Sources

Prompt:

Stimulus: Plain-text table of wartime migration and labor, 1910–1920.

Pattern | Change

African American population in selected northern cities | Increased sharply

Industrial labor demand | Increased during World War I

Southern racial violence and disfranchisement | Continued

Black newspapers | Encouraged migration and reported job opportunities

Which conclusion is best supported by the table?

- A) World War I labor demand and southern racial conditions contributed to the Great Migration.
- B) African American migration to northern cities ended before World War I.
- C) Black newspapers discouraged all movement out of the South.
- D) Northern industrial labor demand declined during World War I.
- A) World War I labor demand and southern racial conditions contributed to the Great Migration.

 - B) Digital platforms strengthened only manufacturing unions.
 - C) New technologies created economic convenience while raising new questions about regulation, benefits, and worker rights.
 - D) Consumer habits remained unchanged by online commerce.

PART B — ANSWER KEY + EXPLANATIONS

APUSH-MCQ6-001 — Correct: B — Correct Answer: Archaeological evidence of large plank houses, carved cedar objects, salmon processing, and coastal trade goods — Explanation: These forms of evidence directly support claims about Pacific Northwest environmental adaptation, resource use, and social complexity.

APUSH-MCQ6-002 — Correct: D — Correct Answer: Rich marine resources and forests that supported fishing, woodworking, and trade — Explanation: Salmon, coastal resources, and cedar forests helped sustain large communities and specialized material culture.

APUSH-MCQ6-003 — Correct: A — Correct Answer: Native societies adapted differently to regional environments and could develop complex social systems without European influence. — Explanation: The interpretation emphasizes regional adaptation and precontact complexity independent of European colonization.

APUSH-MCQ6-004 — Correct: C — Correct Answer: Caribbean plantation models helped shape slavery and law in parts of British North America. — Explanation: The chart connects Barbados and South Carolina through plantation labor, slave codes, and Caribbean influence.

APUSH-MCQ6-005 — Correct: A — Correct Answer: Movement of some English planters and enslaved Africans from the Caribbean to Carolina — Explanation: Migration from the Caribbean helped transmit plantation models and slave codes to Carolina.

APUSH-MCQ6-006 — Correct: B — Correct Answer: Atlantic plantation production relied on coerced African labor and legal systems designed to control that labor. — Explanation: The chart links sugar, rice, enslaved African labor, and coercive legal structures.

APUSH-MCQ6-007 — Correct: D — Correct Answer: The spread of plantation slavery through interconnected Atlantic migration, law, and trade — Explanation: The comparison shows plantation slavery developing through Atlantic connections among colonies and regions.

APUSH-MCQ6-008 — Correct: A — Correct Answer: The Northwest Ordinance organized western settlement while linking land policy, education, and slavery restriction. — Explanation: The map's townships, school lands, and slavery ban all reflect key provisions of the Northwest Ordinance.

APUSH-MCQ6-009 — Correct: C — Correct Answer: The Confederation Congress's attempt to create an orderly process for territorial settlement and statehood — Explanation: The Northwest Ordinance established a process for governing western territories and admitting new states.

APUSH-MCQ6-010 — Correct: B — Correct Answer: Creating republican institutions for western expansion while balancing sectional and federal concerns — Explanation: The early republic had to organize western land, schools, future states, and slavery policy.

APUSH-MCQ6-011 — Correct: D — Correct Answer: The debate over slavery's status in new western territories — Explanation: The Northwest Ordinance's slavery restriction anticipated later conflicts over slavery in western territories.

APUSH-MCQ6-012 — Correct: C — Correct Answer: Revolutionary political culture emphasized written protections against concentrated power. — Explanation: The excerpt's support for bills of rights, frequent elections, and written limits reflects republican fears of concentrated authority.

APUSH-MCQ6-013 — Correct: A — Correct Answer: Revolutionary distrust of monarchy and arbitrary authority shaped new state governments. — Explanation: Revolutionary experiences with imperial authority encouraged constitutional limits and rights protections.

APUSH-MCQ6-014 — Correct: D — Correct Answer: The Revolution encouraged experiments in limiting government through written constitutions and rights protections. — Explanation: State constitution making reflected republican experiments in written limits and popular accountability.

APUSH-MCQ6-015 — Correct: B — Correct Answer: Internal improvements reduced transportation costs and helped integrate regional markets. — Explanation: The table shows falling freight costs, faster travel, wider market access, and town growth after the canal.

APUSH-MCQ6-016 — Correct: A — Correct Answer: It linked the Great Lakes region to the Hudson River and Atlantic trade. — Explanation: The Erie Canal's significance came from connecting western producers to New York and Atlantic markets.

APUSH-MCQ6-017 — Correct: A — Correct Answer: Expansion of settlement and commercial farming in the Old Northwest — Explanation: Cheaper transportation encouraged migration, commercial farming, and market integration in the Old Northwest.

APUSH-MCQ6-018 — Correct: D — Correct Answer: Transcontinental railroad construction — Explanation: Like canals, railroads reshaped economic geography by linking distant regions and markets.

APUSH-MCQ6-019 — Correct: B — Correct Answer: Improving prisons, asylums, and public institutions through moral reform — Explanation: The petition calls for humane treatment and state inspection of institutions.

APUSH-MCQ6-020 — Correct: A — Correct Answer: State legislators and reform-minded citizens — Explanation: The petition asks the state to inspect institutions, making legislators and reform-minded publics the likely audience.

APUSH-MCQ6-021 — Correct: C — Correct Answer: The belief among reformers that government and moral action could improve society — Explanation: Antebellum reformers often sought to improve institutions through moral persuasion and public policy.

APUSH-MCQ6-022 — Correct: D — Correct Answer: Whether slavery should expand into western territories — Explanation: The handbill’s “free labor” and “slave power” language centers on slavery’s expansion westward.

APUSH-MCQ6-023 — Correct: A — Correct Answer: Northern voters and western settlers concerned about labor opportunity and slavery’s expansion — Explanation: Free Soil rhetoric appealed to voters who feared slavery would threaten western free labor.

APUSH-MCQ6-024 — Correct: C — Correct Answer: Antislavery politics could combine moral opposition to slavery with concerns about white labor and western opportunity. — Explanation: The handbill frames slavery as both a moral and labor competition issue.

APUSH-MCQ6-025 — Correct: B — Correct Answer: The rise of the Republican Party on a platform opposing slavery’s expansion — Explanation: Free Soil ideas helped shape later Republican opposition to slavery’s expansion.

APUSH-MCQ6-026 — Correct: D — Correct Answer: Wartime debate over habeas corpus, civil liberties, and executive power — Explanation: The editorial’s concern with arrest without trial during rebellion reflects Civil War civil-liberties debates.

APUSH-MCQ6-027 — Correct: A — Correct Answer: Suspension of habeas corpus in some areas — Explanation: Lincoln’s administration suspended habeas corpus in some areas during the Civil War.

APUSH-MCQ6-028 — Correct: C — Correct Answer: Civil War emergency powers created tension between preserving the Union and protecting constitutional liberties. — Explanation: The rebellion created debates about executive authority and civil liberties.

APUSH-MCQ6-029 — Correct: B — Correct Answer: The war forced Americans to debate how far government power could expand during national crisis. — Explanation: The editorial shows wartime tension between national survival and individual liberties.

APUSH-MCQ6-030 — Correct: A — Correct Answer: State laws requiring separate railway cars and court decisions upholding “separate but equal” — Explanation: These legal measures support the interpretation that segregation was enforced through law and courts.

APUSH-MCQ6-031 — Correct: D — Correct Answer: Plessy v. Ferguson — Explanation: Plessy v. Ferguson upheld the doctrine of “separate but equal” in public accommodations.

APUSH-MCQ6-032 — Correct: B — Correct Answer: Southern white leaders rebuilt racial control after Reconstruction while claiming local authority and social order. — Explanation: After Reconstruction, segregation and disfranchisement helped restore white supremacy in the South.

APUSH-MCQ6-033 — Correct: C — Correct Answer: Law and everyday custom worked together to define unequal citizenship after Reconstruction. — Explanation: The interpretation emphasizes both legal structures and social practices in maintaining racial hierarchy.

APUSH-MCQ6-034 — Correct: A — Correct Answer: The Pullman Strike and the national importance of railroad labor — Explanation: The map, Chicago rail lines, Pullman cars, wages, and company-town rents all point to the Pullman Strike.

APUSH-MCQ6-035 — Correct: C — Correct Answer: Interconnected rail networks linked local labor conflict to national commerce. — Explanation: Rail connections made a local strike disruptive to interstate commerce and national transportation.

APUSH-MCQ6-036 — Correct: D — Correct Answer: Use of federal injunctions and troops to restore rail traffic — Explanation: The federal government used injunctions and troops during the Pullman Strike to restore rail service.

APUSH-MCQ6-037 — Correct: B — Correct Answer: Workplace safety and Progressive regulation of industrial conditions — Explanation: The report's unsafe exits, crowded aisles, and lack of inspections reflect Progressive labor-safety concerns.

APUSH-MCQ6-038 — Correct: A — Correct Answer: Legislators and the public to support stronger workplace regulation — Explanation: The report's emphasis on unenforced laws and unsafe conditions was designed to build support for regulation.

APUSH-MCQ6-039 — Correct: D — Correct Answer: Industrial disasters and urban reform campaigns encouraged new labor and safety laws. — Explanation: Progressive reformers responded to industrial dangers with inspection and workplace safety campaigns.

APUSH-MCQ6-040 — Correct: C — Correct Answer: Women reformers' participation in campaigns for labor protection and public welfare — Explanation: Women reformers often played major roles in factory inspection, labor protection, and public welfare campaigns.

APUSH-MCQ6-041 — Correct: A — Correct Answer: World War I labor demand and southern racial conditions contributed to the Great Migration. — Explanation: The table links wartime jobs, southern racial violence and disfranchisement, newspapers, and migration.

APUSH-MCQ6-042 — Correct: B — Correct Answer: Wartime factory labor shortages in northern cities — Explanation: World War I reduced some labor supplies and increased industrial demand, encouraging Black migration north.

APUSH-MCQ6-043 — Correct: C — Correct Answer: Growth of Black urban communities and new racial tensions in northern cities — Explanation: The Great Migration expanded Black urban communities and also contributed to racial tensions over jobs and housing.

APUSH-MCQ6-044 — Correct: D — Correct Answer: The growth of Black political, cultural, and civil rights organizing in northern cities — Explanation: Black urban communities shaped later political, cultural, and civil rights activism.

APUSH-MCQ6-045 — Correct: A — Correct Answer: Conflicts over court-ordered school desegregation and busing — Explanation: The photograph's school buses, opposing parent signs, and police presence reflect busing disputes.

APUSH-MCQ6-046 — Correct: C — Correct Answer: Court efforts to address de facto and de jure school segregation after Brown v. Board of Education — Explanation: Busing was used in some cities as a remedy for persistent school segregation after Brown.

APUSH-MCQ6-047 — Correct: B — Correct Answer: Civil rights victories produced new conflicts over implementation, local control, and racial equality. — Explanation: The photograph shows that legal victories did not end disputes over how integration would be implemented.

APUSH-MCQ6-048 — Correct: D — Correct Answer: The struggle over racial equality continued through disputes over policy implementation and community resistance. — Explanation: Busing controversies show continuing conflict over civil rights after major legislation and court rulings.

APUSH-MCQ6-049 — Correct: A — Correct Answer: The 1970s economy combined inflation, unemployment, energy shocks, and industrial pressure. — Explanation: The table identifies high inflation, high unemployment, oil shocks, industrial pressure, and declining confidence.

APUSH-MCQ6-050 — Correct: A — Correct Answer: Stagflation — Explanation: Stagflation refers to the unusual combination of high inflation and high unemployment.

APUSH-MCQ6-051 — Correct: C — Correct Answer: Growing criticism of liberal economic management and support for tax cuts, deregulation, and monetary restraint — Explanation: Economic problems in the 1970s helped strengthen later critiques of liberal economic policy.

APUSH-MCQ6-052 — Correct: D — Correct Answer: Digital commerce reshaped consumer habits and labor debates. — Explanation: The table shows online retail, app-based service work, competition with traditional stores, and contractor debates.

APUSH-MCQ6-053 — Correct: B — Correct Answer: Gig workers and platform-based contractors seeking benefits or labor protections — Explanation: Worker-classification debates directly affect platform workers treated as independent contractors.

APUSH-MCQ6-054 — Correct: B — Correct Answer: The growth of internet technology, logistics networks, and flexible service-sector employment — Explanation: These developments made online retail and app-based work possible.

APUSH-MCQ6-055 — Correct: C — Correct Answer: New technologies created economic convenience while raising new questions about regulation, benefits, and worker rights. — Explanation: The table shows both convenience and new labor-policy disputes.

SECTION 2 — SERIES DO-NOT-REPEAT BANK UPDATE — DO NOT IMPORT

SERIES DO-NOT-REPEAT BANK UPDATE — APUSH-MCQ6

· APUSH-MCQ6-001–003: Unit 1; Period 1; Pacific Northwest Native societies, coastal communities, cedar forests, salmon economies; secondary-source interpretation; plank houses, canoe travel, ceremonial exchange, resource-based social hierarchy; claims-evidence and argument path; archaeological/environmental evidence stimulus; targets misconception that precontact Native complexity depended on agriculture alone or European influence.

· APUSH-MCQ6-004–007: Unit 2; Period 2; Barbados, South Carolina, enslaved Africans, English planters, Caribbean-mainland migration; plantation law comparison chart; slave codes, sugar, rice, coerced labor, Atlantic legal and economic transfer; comparison and causation path; plantation labor/legal table; targets misconception that mainland slavery developed separately from Caribbean plantation models.

· APUSH-MCQ6-008–011: Unit 3; Period 3; Northwest Territory, Confederation Congress, western settlers, public schools, enslaved and free labor systems; described Northwest Ordinance map, 1787; township grids, school lands, territorial statehood, slavery restriction north of Ohio River; map/geography and connection path; territorial planning map; targets misconception that the

Confederation government did nothing significant or that western slavery debates began only in the 1850s.

- APUSH-MCQ6-012–014: Unit 3; Period 3; state constitution writers, voters, Revolutionary political theorists; original simulated state constitutional debate excerpt, 1776–1780; bills of rights, frequent elections, written limits, distrust of concentrated power; sourcing and argument path; primary-source-style constitutional debate; targets misconception that independence created only national institutions rather than state-level republican experimentation.
- APUSH-MCQ6-015–018: Unit 4; Period 4; Erie Canal, Buffalo, New York City, western farmers, canal towns; Erie Canal effects table; reduced freight costs, shorter travel, market integration, Old Northwest settlement, internal improvements; quantitative/data and geographic causation path; transportation/economic table; targets misconception that early market integration happened without state-backed transportation change.
- APUSH-MCQ6-019–021: Unit 4; Period 4; asylum and prison reformers, confined poor people, mentally ill and disabled people, state legislators; original simulated asylum reform petition, 1840s; humane institutions, inspection, moral reform, state responsibility; sourcing and reform-context path; public-institution reform petition; targets misconception that antebellum reform was limited to schools, slavery, or women’s rights.
- APUSH-MCQ6-022–025: Unit 5; Period 5; Free Soil supporters, northern voters, western settlers, enslavers, labor ideology; original simulated Free Soil handbill, 1848; free labor, slave power, western land, slavery expansion, Republican Party roots; sourcing and political-development path; campaign handbill text; targets misconception that antislavery politics before the Civil War was always immediate abolitionism or racial equality.
- APUSH-MCQ6-026–029: Unit 5; Period 5; Civil War newspapers, Lincoln administration, dissenters, arrested citizens, northern public; original simulated wartime editorial, 1863; habeas corpus, executive power, national emergency, civil liberties, preserving the Union; sourcing and argument path; primary-source-style wartime editorial; targets misconception that Civil War civil-liberties debates were absent or that Union support was politically uniform.
- APUSH-MCQ6-030–033: Unit 6; Period 6; southern states, Black citizens, public accommodations, courts, segregationists; secondary-source interpretation; Jim Crow public space, separate railway cars, Plessy v. Ferguson, law/custom/violence, unequal citizenship; claims-evidence and argument path; historian interpretation stimulus; targets misconception that segregation was only informal custom or that Reconstruction amendments automatically prevented legal segregation.
- APUSH-MCQ6-034–036: Unit 6; Period 6; Pullman workers, railroad labor, Chicago, federal courts, national commerce; described rail map and strike notice, 1894; Pullman Strike, company-town rents, wages, rail networks, injunctions, troops; map/geography and labor-policy path; railroad network map plus notice; targets misconception that Gilded Age labor conflicts remained local or that federal power stayed neutral.
- APUSH-MCQ6-037–040: Unit 7; Period 7; women factory workers, inspectors, Progressive reformers, legislators, urban employers; original simulated factory inspection report, 1911; unsafe exits, fire risk, enforcement, workplace safety, women’s reform activism; sourcing and Progressive regulation path; inspection report text; targets misconception that Progressive reform ignored industrial workplaces or women workers.

- APUSH-MCQ6-041–044: Unit 7; Period 7; African American migrants, northern industrial cities, Black newspapers, southern racial violence, wartime employers; wartime migration and labor table, 1910–1920; Great Migration, WWI labor demand, disfranchisement, newspapers, Black urban communities; quantitative/data and causation path; migration/labor table; targets misconception that the Great Migration was caused only by individual choice or began without wartime labor demand.
- APUSH-MCQ6-045–048: Unit 8; Period 8; urban parents, students, federal courts, police, civil rights advocates and opponents; described 1970s busing photograph; school desegregation, busing, Brown implementation, local resistance, equality and control debates; visual analysis and argument path; civil-rights implementation photograph; targets misconception that civil rights conflict ended with 1960s legislation or was only southern.
- APUSH-MCQ6-049–051: Unit 8; Period 8; 1970s workers, consumers, policymakers, manufacturing communities, energy users; economic conditions table; inflation, unemployment, oil shocks, industrial pressure, stagflation, declining confidence, conservative economic critique; data interpretation and political-connection path; 1970s economic table; targets misconception that postwar economic growth continued smoothly through the 1970s.
- APUSH-MCQ6-052–055: Unit 9; Period 9; online consumers, gig workers, platform companies, traditional retailers, policymakers; digital commerce and work table; online retail, app-based work, contractor classification, benefits, logistics, internet technology; quantitative/data and argument path; digital economy table; targets misconception that recent technology changed only consumer convenience without affecting labor rights and regulation.
