

SECTION 1 — IMPORT-READY SOURCE FILE

AP U.S. History MCQ Practice Exam 7

PART A — QUESTIONS

APUSH-MCQ7-001

Section: MCQ

Type: mcq

Unit: Unit 1 — Period 1: 1491–1607

Period: Period 1: 1491–1607

Theme: GEO — Geography and the Environment

Skill: Claims and Evidence in Sources

Prompt:

Stimulus: Secondary-source interpretation. A historian argues that some Native societies in the Southwest before sustained European contact developed irrigation systems, settled villages, and exchange networks that allowed farming communities to survive in arid environments. Which evidence would best support this interpretation?

- A) British shipping records showing tobacco exports from Virginia
- B) Archaeological evidence of canal systems, maize remains, pottery, and village sites in desert river valleys
- C) Federal land surveys dividing the Northwest Territory into townships
- D) Newspaper reports about railroad strikes in Chicago

- A) British shipping records showing tobacco exports from Virginia
- B) Archaeological evidence of canal systems, maize remains, pottery, and village sites in desert river valleys
- C) Federal land surveys dividing the Northwest Territory into townships
- D) Newspaper reports about railroad strikes in Chicago

Type: mcq

Unit: Unit 1 — Period 1: 1491–1607

Period: Period 1: 1491–1607

Theme: WXT — Work, Exchange, and Technology

Skill: Developments and Processes

Prompt:

Stimulus: Secondary-source interpretation. A historian argues that Native farming communities in the Southwest used irrigation, settled villages, and exchange networks to adapt to arid environments before sustained European contact. Which factor most directly encouraged the development described?

- A) Heavy rainfall that eliminated the need for water management
- B) European demand for cotton textiles
- C) Access to Atlantic shipping routes
- D) The need to manage scarce water for agriculture

- A) Heavy rainfall that eliminated the need for water management
- B) European demand for cotton textiles
- C) Access to Atlantic shipping routes
- D) The need to manage scarce water for agriculture

Type: mcq

Unit: Unit 1 — Period 1: 1491–1607

Period: Period 1: 1491–1607

Theme: SOC — Social Structures

Skill: Argumentation

Prompt:

Stimulus: Secondary-source interpretation. A historian argues that Native farming communities in the Southwest used irrigation, settled villages, and exchange networks to adapt to arid environments. Which argument about precontact Native societies is best supported?

- A) Environmental adaptation helped produce diverse forms of settlement and economic organization.
- B) Native communities were unable to farm before European colonization.
- C) All Native societies depended on the same subsistence strategy.
- D) Southwestern villages were isolated from all trade networks.

- A) Environmental adaptation helped produce diverse forms of settlement and economic organization.
- B) Native communities were unable to farm before European colonization.
- C) All Native societies depended on the same subsistence strategy.
- D) Southwestern villages were isolated from all trade networks.

Type: mcq

Unit: Unit 2 — Period 2: 1607–1754

Period: Period 2: 1607–1754

Theme: WOR — America in the World

Skill: Claims and Evidence in Sources

Prompt:

Stimulus: Original simulated French colonial report from Louisiana, early 1700s, based on historical context, not an actual quotation. “Our settlements remain thin along the river, and the strength of the colony depends on trade, military posts, and alliances with Native nations more than on fields of settlers.” Which conclusion is best supported by the report?

- A) French Louisiana developed a dense settler population like New England.
- B) French colonists rejected trade and diplomacy with Native peoples.
- C) French power in the lower Mississippi Valley depended heavily on trade networks, military posts, and Native alliances.
- D) French officials abolished all imperial competition in North America.

- A) French Louisiana developed a dense settler population like New England.
- B) French colonists rejected trade and diplomacy with Native peoples.
- C) French power in the lower Mississippi Valley depended heavily on trade networks, military posts, and Native alliances.
- D) French officials abolished all imperial competition in North America.

Type: mcq

Unit: Unit 2 — Period 2: 1607–1754

Period: Period 2: 1607–1754

Theme: GEO — Geography and the Environment

Skill: Contextualization

Prompt:

Stimulus: Original simulated French colonial report from Louisiana, early 1700s, based on historical context, not an actual quotation. The report says French settlements remain thin along the river and depend on trade, posts, and alliances. Which geographic feature most directly shaped the colony's strategic importance?

- A) Control of the Mississippi River system
- B) Access to New England town meetings
- C) Location beside the Appalachian Proclamation Line
- D) Proximity to California gold fields

- A) Control of the Mississippi River system
- B) Access to New England town meetings
- C) Location beside the Appalachian Proclamation Line
- D) Proximity to California gold fields

APUSH-MCQ7-006

Section: MCQ

Type: mcq

Unit: Unit 2 — Period 2: 1607–1754

Period: Period 2: 1607–1754

Theme: PCE — Politics and Power

Skill: Sourcing and Situation

Prompt:

Stimulus: Original simulated French colonial report from Louisiana, early 1700s, based on historical context, not an actual quotation. The report stresses that the colony depends on trade, military posts, and Native alliances more than dense settlement. The report's likely purpose was to persuade French officials to do which of the following?

- A) Abandon the lower Mississippi Valley to British settlers
- B) Support imperial claims by funding posts, trade, and diplomacy
- C) Replace all Native alliances with elected colonial assemblies
- D) End French participation in North American imperial competition

- A) Abandon the lower Mississippi Valley to British settlers
- B) Support imperial claims by funding posts, trade, and diplomacy
- C) Replace all Native alliances with elected colonial assemblies
- D) End French participation in North American imperial competition

Type: mcq

Unit: Unit 2 — Period 2: 1607–1754

Period: Period 2: 1607–1754

Theme: MIG — Migration and Settlement

Skill: Making Connections

Prompt:

Stimulus: Original simulated French colonial report from Louisiana, early 1700s, based on historical context, not an actual quotation. The report describes thin French settlement, river-based posts, trade, and Native alliances. Which comparison with British mainland colonies is best

supported?

- A) French Louisiana generally relied less on dense settler migration than many British colonies along the Atlantic coast.
- B) French Louisiana had a larger settler population than all British colonies combined.
- C) British colonies avoided agriculture and permanent settlement.
- D) French and British colonies used identical settlement patterns in every region.

- A) French Louisiana generally relied less on dense settler migration than many British colonies along the Atlantic coast.
- B) French Louisiana had a larger settler population than all British colonies combined.

Unit: Unit 3 — Period 3: 1754–1800

Period: Period 3: 1754–1800

Theme: ARC — American and Regional Culture

Skill: Making Connections

Prompt:

Stimulus: Described political print, c. 1765. The image shows a coffin labeled “Liberty,” stamped paper, colonial printers and merchants, and a protesting crowd near a customs house. Which broader development is most closely connected to the image?

- A) The disappearance of political print culture in the colonies
- B) Colonial agreement that Parliament should control local taxation
- C) The decline of public protest after the French and Indian War
- D) The growth of popular political mobilization during the imperial crisis

- A) The disappearance of political print culture in the colonies
- B) Colonial agreement that Parliament should control local taxation
- C) The decline of public protest after the French and Indian War
- D) The growth of popular political mobilization during the imperial crisis

APUSH-MCQ7-012

Section: MCQ

Type: mcq

Unit: Unit 3 — Period 3: 1754–1800

Period: Period 3: 1754–1800

Theme: PCE — Politics and Power

Skill: Claims and Evidence in Sources

Prompt:

Stimulus: Original simulated ratification convention speech, 1788, based on historical context, not an actual quotation. “A stronger union may be necessary, but paper barriers must guard conscience, press, jury, and the people’s arms. Without declared rights, power will invent its own limits.”

Which demand is most directly reflected in the speech?

- A) Addition of a bill of rights to the Constitution
- B) Immediate abolition of all state governments
- C) Creation of a national church
- D) Expansion of slavery into the Northwest Territory

A) Addition of a bill of rights to the Constitution

B) Immediate abolition of all state governments

C) Creation of a national church

D) Expansion of slavery into the Northwest Territory

APUSH-MCQ7-013

Unit: Unit 3 — Period 3: 1754–1800

Period: Period 3: 1754–1800

Theme: NAT — American and National Identity

Skill: Sourcing and Situation

Prompt:

Stimulus: Original simulated ratification convention speech, 1788, based on historical context, not an actual quotation. The speaker accepts that a stronger union may be necessary but warns that rights must be declared to limit power. Which group’s concerns are most directly reflected?

- A) Loyalists defending continued British rule
- B) Federalists demanding a stronger executive without limits
- C) Anti-Federalists worried that the new Constitution gave too much power to the national government
- D) Populists criticizing railroad rates

A) Loyalists defending continued British rule

B) Federalists demanding a stronger executive without limits

C) Anti-Federalists worried that the new Constitution gave too much power to the national government

D) Populists criticizing railroad rates

APUSH-MCQ7-014

Section: MCQ

Type: mcq

Unit: Unit 3 — Period 3: 1754–1800

Period: Period 3: 1754–1800

Theme: PCE — Politics and Power

Skill: Argumentation

Prompt:

Stimulus: Original simulated ratification convention speech, 1788, based on historical context, not an actual quotation. The speaker supports a stronger union only if declared rights protect

conscience, press, jury, and arms. Which argument about ratification is best supported?

- A) Constitutional ratification involved debate over how to balance national power with protections for individual liberties.
- B) Anti-Federalists wanted to restore British monarchy.
- C) Federalists and Anti-Federalists agreed that bills of rights were unnecessary.
- D) Ratification debates avoided questions of civil liberties.

A) Constitutional ratification involved debate over how to balance national power with protections for individual liberties.

- B) Anti-Federalists wanted to restore British monarchy.
- C) Federalists and Anti-Federalists agreed that bills of rights were unnecessary.
- D) Ratification debates avoided questions of civil liberties.

APUSH-MCQ7-015

Section: MCQ

Type: mcq

Unit: Unit 4 — Period 4: 1800–1848

Period: Period 4: 1800–1848

Theme: WXT — Work, Exchange, and Technology

Skill: Claims and Evidence in Sources

Prompt:

Stimulus: Plain-text table of steamboat commerce.

Indicator | c. 1810 | c. 1840

Steamboats on western rivers | Few | Many

Downriver-only trade dependence | High | Lower

Movement of cotton, pork, flour, and passengers | Slower | Faster

River towns | Limited growth | Expanded commercial activity

Which conclusion is best supported by the table?

- A) Steamboats reduced the importance of river transportation.
- B) Steamboats increased the speed and flexibility of commerce on western rivers.
- C) Steamboats ended all agricultural trade in the Mississippi Valley.
- D) Western river towns declined as steamboats spread.

A) Steamboats reduced the importance of river transportation.

- B) Steamboats increased the speed and flexibility of commerce on western rivers.
- C) Steamboats ended all agricultural trade in the Mississippi Valley.
- D) Western river towns declined as steamboats spread.

APUSH-MCQ7-016

Skill: Contextualization

Prompt:

Stimulus: Described map and production chart, c. 1860–1890. The map shows western mining districts and rail links, while the chart shows rising silver output and unstable prices. Which political issue was most closely connected to silver production?

- A) Whether colonies should resist the Stamp Act
- B) Whether the federal government should create Medicare

- C) Whether the United States should enter World War I
- D) Debate over silver coinage and monetary policy

- A) Whether colonies should resist the Stamp Act
- B) Whether the federal government should create Medicare
- C) Whether the United States should enter World War I
- D) Debate over silver coinage and monetary policy

Unit: Unit 7 — Period 7: 1890–1945

Period: Period 7: 1890–1945

Theme: PCE — Politics and Power

Skill: Claims and Evidence in Sources

Prompt:

Stimulus: Plain-text table of Progressive political reforms.

Reform | Intended effect

Initiative | Allow voters to propose laws

Referendum | Allow voters to approve or reject laws

Recall | Allow voters to remove some officials before the end of a term

Direct primary | Reduce party boss control over nominations

Which conclusion is best supported by the table?

- A) Progressive reforms reduced voter influence in politics.
- B) Some Progressives sought to make government more directly responsive to voters.
- C) Progressives wanted political parties to control all nominations without voter input.
- D) Progressive reforms abolished state governments.

- A) Progressive reforms reduced voter influence in politics.

- C) Economic globalization reshaped work and politics by creating both benefits and dislocations.
- D) Manufacturing communities were unaffected by international competition.

PART B — ANSWER KEY + EXPLANATIONS

APUSH-MCQ7-001 — Correct: B — Correct Answer: Archaeological evidence of canal systems, maize remains, pottery, and village sites in desert river valleys — Explanation: Canal systems, maize, pottery, and village sites directly support claims about irrigation, farming, settlement, and exchange in the Southwest.

APUSH-MCQ7-002 — Correct: D — Correct Answer: The need to manage scarce water for agriculture — Explanation: Arid conditions encouraged irrigation and water management among Southwestern farming communities.

APUSH-MCQ7-003 — Correct: A — Correct Answer: Environmental adaptation helped produce diverse forms of settlement and economic organization. — Explanation: The interpretation shows that Native societies adapted to regional environments in varied and complex ways.

APUSH-MCQ7-004 — Correct: C — Correct Answer: French power in the lower Mississippi Valley depended heavily on trade networks, military posts, and Native alliances. — Explanation: The report emphasizes thin settlement and reliance on trade, posts, and alliances.

APUSH-MCQ7-005 — Correct: A — Correct Answer: Control of the Mississippi River system — Explanation: The Mississippi River gave Louisiana strategic value for trade, movement, and imperial claims.

APUSH-MCQ7-006 — Correct: B — Correct Answer: Support imperial claims by funding posts, trade, and diplomacy — Explanation: The report's emphasis on posts and alliances suggests a request for imperial support.

APUSH-MCQ7-007 — Correct: A — Correct Answer: French Louisiana generally relied less on dense settler migration than many British colonies along the Atlantic coast. — Explanation: The report contrasts thin French settlement with a model based on trade, posts, and Native diplomacy.

APUSH-MCQ7-008 — Correct: C — Correct Answer: Colonial resistance to the Stamp Act and parliamentary taxation — Explanation: The stamped paper, printers, merchants, and "Liberty" imagery point to Stamp Act resistance.

APUSH-MCQ7-009 — Correct: A — Correct Answer: The tax directly affected paper, legal documents, newspapers, and commercial transactions. — Explanation: The Stamp Act affected printed and legal materials, making printers and merchants especially concerned.

APUSH-MCQ7-010 — Correct: B — Correct Answer: Mobilize public opposition by portraying taxation as a threat to colonial liberty — Explanation: The print uses emotional symbolism to persuade viewers that the tax threatened liberty.

APUSH-MCQ7-011 — Correct: D — Correct Answer: The growth of popular political mobilization during the imperial crisis — Explanation: The print reflects expanding public protest and political communication during the imperial crisis.

APUSH-MCQ7-012 — Correct: A — Correct Answer: Addition of a bill of rights to the Constitution — Explanation: The speech demands declared protections for conscience, press, jury, and arms.

APUSH-MCQ7-013 — Correct: C — Correct Answer: Anti-Federalists worried that the new Constitution gave too much power to the national government — Explanation: Anti-Federalists often demanded explicit rights protections as a condition of ratification.

APUSH-MCQ7-014 — Correct: A — Correct Answer: Constitutional ratification involved debate over how to balance national power with protections for individual liberties. — Explanation: The speech accepts stronger union but insists on rights protections and limits.

APUSH-MCQ7-015 — Correct: B — Correct Answer: Steamboats increased the speed and flexibility of commerce on western rivers. — Explanation: The table shows faster movement, lower dependence on downriver trade, and expanded commerce.

APUSH-MCQ7-016 — Correct: A — Correct Answer: The Mississippi and Ohio River valleys — Explanation: Steamboats transformed commerce on western rivers, especially the Mississippi and Ohio systems.

APUSH-MCQ7-017 — Correct: C — Correct Answer: Expansion of market-oriented settlement in the trans-Appalachian West — Explanation: Faster river transport helped settlers and farmers connect to markets.

APUSH-MCQ7-018 — Correct: D — Correct Answer: The spread of railroads across regional and national markets — Explanation: Railroads later integrated markets in a similar but broader way.

APUSH-MCQ7-019 — Correct: C — Correct Answer: The Nullification Crisis — Explanation: The statement's tariff criticism and compact theory reflect South Carolina nullification arguments.

APUSH-MCQ7-020 — Correct: A — Correct Answer: Southern planters often opposed tariffs they believed raised costs and favored northern manufacturers. — Explanation: Southern critics argued protective tariffs benefited manufacturers while burdening agricultural exporters and consumers.

APUSH-MCQ7-021 — Correct: B — Correct Answer: Sectional economic conflicts could become constitutional disputes over state and national authority. — Explanation: The tariff controversy became a debate over nullification, federal authority, and state power.

APUSH-MCQ7-022 — Correct: A — Correct Answer: The United States gained major western territories after war with Mexico. — Explanation: The map's campaigns and shaded acquired lands reflect the Mexican-American War and Mexican Cession.

APUSH-MCQ7-023 — Correct: B — Correct Answer: Manifest Destiny — Explanation: Manifest Destiny helped justify expansion into western lands and war with Mexico.

APUSH-MCQ7-024 — Correct: C — Correct Answer: Whether slavery would be permitted in lands acquired from Mexico — Explanation: The Mexican Cession intensified conflict over slavery's expansion.

APUSH-MCQ7-025 — Correct: A — Correct Answer: Territorial expansion strengthened national power while deepening conflicts over the meaning and limits of expansion. — Explanation: The war expanded U.S. territory but intensified sectional and ideological debates.

APUSH-MCQ7-026 — Correct: A — Correct Answer: Federal efforts to regulate the transition from slavery to free labor — Explanation: The circular's contracts, wages, and limits on coercion reflect Freedmen's Bureau labor policy.

APUSH-MCQ7-027 — Correct: A — Correct Answer: Bureau officials attempted to replace slavery with a contractual wage-labor system. — Explanation: The circular requires written terms for wages, rations, and residence, showing contract labor ideals.

APUSH-MCQ7-028 — Correct: B — Correct Answer: The end of slavery created conflict over labor rights, family autonomy, and federal authority in the South. — Explanation: The circular addresses disputes over how free labor and family life would operate after emancipation.

APUSH-MCQ7-029 — Correct: A — Correct Answer: Reconstruction involved not only political rights but also struggles over the practical meaning of free labor. — Explanation: The circular shows Reconstruction involved labor contracts, wages, family autonomy, and coercion.

APUSH-MCQ7-030 — Correct: B — Correct Answer: Mining discoveries, railroads, and metal prices connected the West to national and global capitalism. — Explanation: The map and chart link western mining to railroads, markets, and unstable commodity prices.

APUSH-MCQ7-031 — Correct: A — Correct Answer: Boomtown growth, landscape disruption, and intensified conflicts over western land and resources — Explanation: Mining brought rapid settlement, environmental change, and conflict over resources.

APUSH-MCQ7-032 — Correct: D — Correct Answer: Debate over silver coinage and monetary policy — Explanation: Silver production and prices contributed to late nineteenth-century monetary debates.

APUSH-MCQ7-033 — Correct: A — Correct Answer: Westward migration driven by mineral discoveries and speculative investment — Explanation: Mining districts attracted migrants and investors to western regions.

APUSH-MCQ7-034 — Correct: A — Correct Answer: The American Federation of Labor's emphasis on skilled workers and practical workplace gains — Explanation: The notice's focus on skilled craftsmen, wages, hours, and bargaining reflects AFL-style craft unionism.

APUSH-MCQ7-035 — Correct: B — Correct Answer: Craft unionism often focused on wages, hours, and control of skilled labor. — Explanation: The source emphasizes practical workplace goals and organized skilled workers.

APUSH-MCQ7-036 — Correct: A — Correct Answer: Labor organizing included competing strategies, from broad reform visions to narrower craft bargaining. — Explanation: The notice contrasts craft bargaining with broader social transformation.

APUSH-MCQ7-037 — Correct: B — Correct Answer: Some Progressives sought to make government more directly responsive to voters. — Explanation: Initiative, referendum, recall, and direct primaries increased voter influence.

APUSH-MCQ7-038 — Correct: A — Correct Answer: Fear that party machines, corporations, and political bosses had too much influence over government — Explanation: Progressive democratic reforms targeted corruption and concentrated political power.

APUSH-MCQ7-039 — Correct: D — Correct Answer: The woman suffrage movement — Explanation: Woman suffrage was part of the broader Progressive-era expansion of democratic participation.

APUSH-MCQ7-040 — Correct: C — Correct Answer: Progressive reform often combined distrust of concentrated power with faith in informed voters and expert administration. — Explanation: The table reflects efforts to curb bosses and make politics more responsive.

APUSH-MCQ7-041 — Correct: A — Correct Answer: The influenza pandemic intersected with wartime mobilization and local public-health measures. — Explanation: The table connects troop movement, public-health orders, public gatherings, and war bond campaigns.

APUSH-MCQ7-042 — Correct: C — Correct Answer: World War I mobilization moved people rapidly while cities struggled to balance public health and wartime demands. — Explanation: Wartime troop movement and civic mobilization complicated pandemic response.

APUSH-MCQ7-043 — Correct: B — Correct Answer: Local and state governments exercising public-health authority during emergency conditions — Explanation: Mask rules, school closures, and quarantines show local and state public-health powers.

APUSH-MCQ7-044 — Correct: A — Correct Answer: Public crises often expand debate over the balance between individual behavior, community welfare, and government authority. — Explanation: Pandemic restrictions reveal tensions among rights, public welfare, and state authority.

APUSH-MCQ7-045 — Correct: C — Correct Answer: Cold War concern that science and education were essential to national security — Explanation: The poster links science education to freedom and Cold War competition.

APUSH-MCQ7-046 — Correct: A — Correct Answer: The Soviet launch of Sputnik — Explanation: Sputnik intensified U.S. fears about science, technology, education, and Cold War competition.

APUSH-MCQ7-047 — Correct: D — Correct Answer: Increased federal support for science and mathematics education — Explanation: The federal government increased support for science and math education after Sputnik.

APUSH-MCQ7-048 — Correct: A — Correct Answer: Cold War competition shaped domestic education and cultural definitions of citizenship. — Explanation: The poster connects classroom science to national identity and Cold War freedom.

APUSH-MCQ7-049 — Correct: A — Correct Answer: LGBTQ+ activism emerging from resistance to policing and demands for public recognition — Explanation: The leaflet objects to police raids, discrimination, and hiding while claiming public space.

APUSH-MCQ7-050 — Correct: A — Correct Answer: LGBTQ+ activists connected personal identity to public space, employment, media, and family recognition. — Explanation: The leaflet lists streets, bars, jobs, newspapers, and families as areas of public recognition.

APUSH-MCQ7-051 — Correct: B — Correct Answer: The expansion of social movements that challenged legal exclusion and cultural stigma — Explanation: The leaflet reflects postwar rights movements challenging discrimination and stigma.

APUSH-MCQ7-052 — Correct: A — Correct Answer: Late twentieth-century economic integration had uneven effects across regions and sectors. — Explanation: The table shows cross-border trade, international supply chains, service growth, and manufacturing decline in some communities.

APUSH-MCQ7-053 — Correct: B — Correct Answer: NAFTA and debates over free trade — Explanation: NAFTA belongs directly to late twentieth-century debates over North American economic integration.

APUSH-MCQ7-054 — Correct: A — Correct Answer: Regional disagreement over whether globalization created opportunity or economic insecurity — Explanation: The table's mixed effects help explain regional and political disagreement over globalization.

APUSH-MCQ7-055 — Correct: C — Correct Answer: Economic globalization reshaped work and politics by creating both benefits and dislocations. — Explanation: The table supports an argument that globalization produced opportunities and disruptions.

SECTION 2 — SERIES DO-NOT-REPEAT BANK UPDATE — DO NOT IMPORT

SERIES DO-NOT-REPEAT BANK UPDATE — APUSH-MCQ7

· APUSH-MCQ7-001–003: Unit 1; Period 1; Southwestern Native irrigation communities, desert river valleys, farming villages; secondary-source interpretation; canal systems, maize agriculture, pottery, water management, regional environmental adaptation; claims-evidence and argument path; archaeological/environmental evidence stimulus; targets misconception that precontact farming required European influence or that all Native societies adapted similarly.

· APUSH-MCQ7-004–007: Unit 2; Period 2; French Louisiana, lower Mississippi Valley, Native allies, French officials, river settlements; original simulated French colonial report; thin settlement, trade, military posts, diplomacy, Mississippi River strategy; sourcing/comparison path; primary-source-style colonial report; targets misconception that all European colonies relied on dense settler migration like British Atlantic colonies.

· APUSH-MCQ7-008–011: Unit 3; Period 3; colonial printers, merchants, artisans, crowds, customs officials; described Stamp Act political print, c. 1765; stamped paper, political symbolism, public protest, print culture, imperial taxation; visual analysis and popular mobilization path; political print visual; targets misconception that imperial resistance was only elite legislative debate.

- APUSH-MCQ7-012–014: Unit 3; Period 3; ratification convention speakers, Anti-Federalists, Federalists, state voters; original simulated ratification speech, 1788; bill of rights, conscience, press, jury, arms, national power limits; sourcing and argument path; primary-source-style ratification speech; targets misconception that ratification debates concerned only whether to strengthen the national government, not civil liberties.

- APUSH-MCQ7-015–018: Unit 4; Period 4; steamboat operators, western farmers, river towns, Mississippi and Ohio River valleys; steamboat commerce table; faster movement, lower trade dependence, river commerce, market revolution, regional integration; quantitative/data and geographic causation path; transportation/economic table; targets misconception that market integration happened only through canals or railroads.

- APUSH-MCQ7-019–021: Unit 4; Period 4; South Carolina legislators, southern planters, northern manufacturers, federal government; original simulated Nullification Crisis statement, 1832; protective tariff, compact theory, sectional economics, state authority, federal power; sourcing and federalism argument path; primary-source-style legislative statement; targets misconception that tariff debates were only economic and not constitutional.

- APUSH-MCQ7-022–025: Unit 5; Period 5; U.S. troops, Mexico, California, New Mexico, Texas borderlands, expansionists and critics; described Mexican-American War campaign/acquisition map, 1846–1848; Manifest Destiny, military campaigns, Mexican Cession, slavery expansion debate; map/geography and argument path; war/territorial expansion map; targets misconception that the Mexican-American War was disconnected from sectional conflict.

- APUSH-MCQ7-026–029: Unit 5; Period 5; Freedmen’s Bureau agents, freed families, planters, rural South; original simulated labor circular, 1866; contracts, wages, rations, family residence, planter coercion, transition to free labor; sourcing and Reconstruction labor path; primary-source-style federal labor circular; targets misconception that Reconstruction was only about voting or that emancipation automatically defined free labor.

- APUSH-MCQ7-030–033: Unit 6; Period 6; Nevada Comstock Lode, Colorado mining districts, railroads, investors, mining migrants; described mining map and silver production chart, c. 1860–1890; boomtowns, resource extraction, rail links, commodity prices, silver coinage debate; map/data and political-economy path; western mining map plus production chart; targets misconception that western mining was isolated from national markets or politics.

- APUSH-MCQ7-034–036: Unit 6; Period 6; skilled craftsmen, AFL-style unionists, employers, Gilded Age workers; original simulated craft union notice, 1880s; skilled labor, wages, shorter hours, collective bargaining, craft unionism versus broader reform unionism; sourcing and labor-comparison path; union notice text; targets misconception that all labor organizations had identical goals and memberships.

- APUSH-MCQ7-037–040: Unit 7; Period 7; Progressive reformers, voters, party bosses, corporations, suffragists; Progressive political reform table; initiative, referendum, recall, direct primary, voter influence, democratic participation; data/table interpretation and argument path; political reform table; targets misconception that Progressivism was only expert-led regulation and not also democratic reform.

- APUSH-MCQ7-041–044: Unit 7; Period 7; World War I troops, city residents, public-health officials, war bond organizers; influenza and home-front conditions table, 1918–1919; troop movement, quarantines, mask rules, school closures, wartime public health, civic mobilization;

quantitative/timeline-style table and public-crisis path; pandemic/home-front table; targets misconception that WWI home-front mobilization was separate from public-health crisis.

- APUSH-MCQ7-045–048: Unit 8; Period 8; Cold War students, teachers, federal policymakers, scientific community, Soviet rivals; described science classroom poster, late 1950s; Sputnik, science education, national security, freedom, federal education support; visual analysis and Cold War domestic-policy path; classroom poster visual; targets misconception that Cold War competition was only military or diplomatic.

- APUSH-MCQ7-049–051: Unit 8; Period 8; LGBTQ+ activists, police, employers, urban communities, newspapers, families; original simulated LGBTQ+ rights leaflet, early 1970s; resistance to police raids, public recognition, employment discrimination, cultural stigma, social-movement expansion; sourcing and rights-movement path; activist leaflet text; targets misconception that postwar rights activism excluded sexuality, public space, or cultural recognition.

- APUSH-MCQ7-052–055: Unit 9; Period 9; North American workers, manufacturing communities, logistics and service workers, corporations, policymakers; economic integration table; NAFTA/free-trade debates, international supply chains, manufacturing decline, service/logistics growth, regional dislocation; data interpretation and argument path; globalization/trade table; targets misconception that globalization produced uniformly positive or uniformly negative effects without regional variation.
